for, 51-52, 63, 76-85
selecting research procedure
for, 50-51
selecting tools and
equipment for, 63-64, 66
setting objectives for, 73-74
sources of ideas for, 59-60
Technical research proposal
components of, 88-89
development of, 52-53
sample, 98-105
statement of purpose, 89-90
Technical research tools, 64

Technological development, 17-18
Technological philosophy, 32
Technology
  and social change, 4-6
  as a new science, 29-30
  relationship with science, 30-32, 36-42
Texas Instruments OST System, 21-22
Tools, for technical research, 63-64, 66
Transcendental revelation, 12
True experimental research designs, 82-83

U

Unemployment, 4-6

V

Variability, 152
Variable errors, 127-128
Variables, 62-63
Visual analysis, 150

W

Walton, Richard R., on the technical research process, 200
Ward, Curt, on the technical research process, 201
Written report, of research results, 177-180

Contents

Foreword v
Preface xii
Acknowledgments xiv

Chapter 1

A Perspective For Technical Research 1
Paul W. DeVore
West Virginia University

Chapter 2

Technology and Science 27
Paul W. DeVore
West Virginia University

Chapter 3

A Model of the Technical Research Project 46
Richard D. Seymour
Ball State University

Chapter 4

Conceptualizing the Research Topics 58
Gary D. Weede
Illinois State University

Chapter 5

Selecting a Technical Research Design 68
Michael R. White
University of Northern Iowa

Chapter 6

Preparing and Presenting the Technical Research Proposal 88
Harold H. Halfin
Orville W. Nelson
University of Wisconsin-Stout

Chapter 7

Managing the Technical Research Project 107
Donald L. Clark
Texas A&M University

Chapter 8

Conducting the Technical Research Project 122
Ray L. Shackleford
Ball State University

Chapter 9

Assessing the Results 143
Ron J. Kovac
Ball State University

Chapter 10

Reporting the Results 171
Wayne D. Andrews
Illinois State University

Chapter 11

Evaluating and Applying the Results 185
Max E. Kanagy
Eastern Michigan University

Chapter 12

Creativity in the Technologies: A Search for Insight — Inventors and Inventions 197
Paul W. DeVore
West Virginia University

Index 224
